PRODUCT DESIGN LEAD | 0→1, SYSTEMS & GROWTH

Product designer who makes hard things feel learnable. 15+ years in design, more than a decade in tech: from Duolingo's early days through IPO (500M+ learners) to leading design for Remitly Business, a regulated 0→1 fintech product. I turn recurring problems into systems a whole team can run on. Design lead for a 4-person pod; I represent design on the GM's leadership team.

EXPERIENCE

Remitly (United States, 2023–present)

Senior Product Designer, Design Lead

- **0→1 to scale:** Seed and lead designer. Took Remitly Business from a hidden web experiment to a core company bet, now serving 25,000+ active businesses across the US, UK, Canada, and EU.
- **Design leadership:** Represent design on the GM's leadership team. Lead a 4-person design pod, mentor three designers, and run design reviews. One designer now independently leads EU expansion on systems I built.
- **Systems:** Co-created the team's Ways of Working model and built a design review gate into the engineering workflow. Built a business component library and reusable patterns with the design systems team.
- **Decisions that moved the business:** Switchback flow (+11–12% transaction completion, –33% accidental business registrations); kept both account choices visible at the personal-vs-business fork (+10% business sign-ups).
- **Regulated onboarding:** Started on the Risk team, then designed KYB, KYC, and compliance flows, including an async path so businesses can start sending before verification finishes. Redesigned sole-prop onboarding: ~2× business activation, no added fraud.
- **Raising the quality bar:** Leading a visual quality overhaul and the home screen and navigation redesign.

Duolingo (USA, 2015–2022)

Sr. Community Manager (Community Product Design)

Design lead for the Community team from <40 employees through IPO, building features for 500M+ learners across a deeply multilingual, global product.

Streak Society | Design Lead 3.15% lift in paid subscriber DAUs; 7.2% increase in DAUs with 15+ min daily use.

News Feed | Creator & Design Lead In-app feed connecting learners to the brand and each other; +88% blog UPV.

Duolingo Stories | Co-creator Co-created the format with one engineer (short, quirky dialogues with a twist); wrote the first stories and recorded voices.

Duocon | Co-creator & Design Lead Duolingo's first community event; 160K+ estimated viewers, 90%+ satisfaction, 2-month production window.

Reidler Design (Sweden/USA, 2009–2015)

Freelance Designer

Product prototypes, brand identities, and digital experiences for startups and Carnegie Mellon HCII researchers.
